Full

Verbal Description

Broken candelero frag w/ 1 full & 4 partial chambers preserved. No decoration visible. one small, rough vent hole visible of 0.4cm diam, 1.1 cm up from bottom of candelero. Holes = 2.9cm deep. There is burning visible at lower half of some chambers - though I see no pattern of which chambers have heavy burning & which do not. Burning at bottom of holes goes well into paste & is indistinguishable from firing core. Bottom of candelero is slightly darker than sides & top, from firing or use, impossible to say.
